

**Amendments to the Specification:**

Please delete the paragraph beginning on page 9, line 13 as follows:

~~Figure 17 is a diagram of a computer system, according to an embodiment of the invention.~~

Please amend the paragraph beginning on page 32, line 13 as follows:

A representative hardware environment for practicing the present invention is ~~depicted in~~ Figure 17, which illustrates a typical hardware configuration of an information handling computer system in accordance with the subject invention, having at least one processor or central processing unit (CPU) 10. CPUs 10 are interconnected via system bus 12 to random access memory (RAM) 14, read-only memory (ROM) 16, an input/output (I/O) adapter 18 for connecting peripheral devices, such as disk units 11 and tape drives 13, to bus 12, user interface adapter 19 for connecting keyboard 15, mouse 17, speaker 103, microphone 104, and/or other user interface devices such as touch screen device (not shown) to bus 12, communication adapter 105 for connecting the information handling system to a data processing network, and display adapter 101 for connecting bus 12 to display device 102. A program storage device, readable for example by the disk or tape units, is used to load the instructions which operate the invention from a computer-readable medium onto the computer system.
